PROFILE

Computing graduate transitioning from web development into cybersecurity, backed by ISC2 and Cisco certifications, CompTIA Security+ in progress, and hands-on practice via TryHackMe and Forage virtual simulations covering threat analysis, digital forensics, and incident response. Brings a developer's understanding of how applications are built to the practice of finding and fixing how they break.

CERTIFICATIONS

CompTIA Security+ — CompTIA 08/2026

ISC2 Certified in Cybersecurity (CC) — ISC2 03/2025

Demonstrates foundational knowledge of security principles, access control, network security, risk management, and incident response.

Introduction to Cybersecurity — Cisco Networking Academy 06/2025

Foundational knowledge of cyber threats, security operations, risk management, and cybersecurity best practices.

CYBERSECURITY SIMULATIONS

AIG Shields Up — Forage

Threat analysis, vulnerability assessment, reconnaissance, and Python-based security tasks.

ANZ Cyber Security — Forage

Email threat investigation, packet analysis, digital forensics, and incident response activities.

EDUCATION

Pearson BTEC Level 5 Higher National Diploma (HND) Computing 09/2024 – 05/2026

International Centre of Excellence (ICE) Islamabad, Pakistan

- Studied networking, information security, cloud computing, software development, databases, and artificial intelligence.
- Completed modules including Security, Information Security Management, Network Security, Cloud Computing, Forensics, Cryptography, Networking, Machine Learning, and Risk Analysis & Systems Testing.
- Achieved Distinction in Application Development and Machine Learning.
- Developed projects involving secure web development, AI applications, and computing research.

WORK EXPERIENCE

Web Developer 05 Feb 2026 – Present

Sandlab (sandlab.pk) Islamabad, Pakistan

Junior Developer 01 Mar 2025 – 05 Feb 2026

Oxbridge Digital (oxbridgedigital.com) Islamabad, Pakistan

Assisted in developing and customizing CMS projects including GDPR-compliant websites and Learning Management Systems (LMS), with attention to secure coding and data-protection requirements. Worked with WordPress, CodeIgniter, Laravel, React, HTML, CSS, and JavaScript while collaborating with development teams and stakeholders.

SOFT SKILLS

Teamwork · Problem Solving · Critical Thinking · Adaptability · Communication · Time Management · Attention to Detail · Conflict Resolution · Creativity · Work Ethic
